## WORK EXPERIENCE

---

### Karmanos Cancer Center - ICU - ICU Nurse

October 2014 - current

Detroit, MI

- Established therapeutic relationships, and created detailed care plans with patients and family centered around mutually determined aspects
- Communicated with patients, families, and colleagues to ensure plans and associated interventions were understood and revised as appropriate
- Established process improvements to increase continuity in the nurse to patient relationship, which helped reduce re-work by 13%
- Evaluated patient response to interventions, revising plans as needed
- Monitored patient progress and prepared 500+ patients for discharge, utilizing established clinical pathways

### TriStar Greenview - ICU Nurse

September 2011 - September 2014

Detroit, MI

- Assessed plans and evaluated 10+ patients per day under physician orders
- Served as the primary coordinator of all disciplines for well-coordinated patient care, helping the ICU decrease mortality rates by 6%
- Acted as a patient advocate by giving age and culturally appropriate care
- Provided direct care to more than 300 patients in life-threatening situations, and ensured documentation was thorough and up-to-date
- Ensured proper placement and functioning of catheters, leads, and tubing
