WORK EXPERIENCE

Travel Nurse

Aureus Medical Group

📅 January 2019 - December 2020

📍 Houston TX

- Developed a care plan, and established goals based on diagnosis for over 100 patients in a 48-week contract
- Assessed patient and family to determine home health needs by providing a physical assessment and history of current and previous illnesses
- Incorporated therapeutic, preventative, and rehabilitative actions that boosted patient health outcomes by 37%
- Communicated health care instructions to patients per assessment and plan of care in a clear, empathetic way

Travel Nurse

Memorial Hermann Health System

📅 December 2016 - November 2018

📍 Houston, TX

- Fostered a culture of thorough, detailed, and organized documentation to improve efficiency by 18% for healthcare providers when interacting with new patients
- Administered medications, injections, and IV treatments as needed during a 12-week commitment, which was extended through November 2018
- Triageed patients as they entered the ER, and expedited treatment for those patients that required immediate care by more than 45 minutes
- Communicated and collaborated with 15+ medical specialists throughout the hospital to ensure top-of-the-line care for patients
- Encouraged patient communication, and responded to patient calls and emails within 2 business days

Travel Nurse

CHI St. Luke's Health

📅 August 2014 - July 2016

📍 Houston, TX

- Studied patients' response to treatment, and worked with patients and families to revise plans as needed
- Prepared nutrition plans for patients, resulting in a 60% boost in health outcomes
- Held patients accountable for their progress with 1:1 discussions around proper continued care
