CAREER OBJECTIVE

Aspiring candidate with valuable nursing internship experience, aiming to join North Carolina Specialty Hospital as an entry-level nurse. Eager to contribute to the hospital's commitment to providing exceptional digitized patient care using my expertise in healthcare tools like Omnicell and PeraHealth's Rothman.

WORK EXPERIENCE

Intern

Chatham Hospital

📅 2022 - 2023

📍 Durham, NC

- Assisted the reception staff to maintain a clean and organized entrance, reducing instances of hospital-acquired infections by 11%.
- Managed a set of 3,295+ patient records in Cerner Millennium, gaining a 97% accuracy rate via meticulous attention to detail.
- Adjusted Hill-Rom smart beds as per patients' preferences to enhance comfort, boosting patient satisfaction scores by 6%, as per post-admission survey forms.
- Followed all wound care procedures provided by seniors in WoundExpert, contributing to a **23% decrease in wound-related complications**.

Tutor

Upwork

📅 2021 - 2022

📍 Remote

- Provided personalized training on NurseGrid, helping students lower their scheduling errors in clinical settings in 11 cases.
- Tutored students to efficiently use Omnicell in hospitals, helping them **mitigate medication dispensing errors by 22%** in simulated environments.
- Expanded personal client base on Upwork by 47% within one year via strong communication and networking.
- Achieved an average 94% positive feedback rate on the platform by personalizing weekly learning sessions to individual learning styles.

PROJECTS

Advances in Patient Care

Attendee

📅 2020

- Attended a seminar covering the latest advancements in healthcare, **learning 7 new patient care techniques** for emergency cases.
- Developed a deeper understanding of using PeraHealth's Rothman analytics, discovering patient deterioration trends 13 hours quicker during hypothetical scenario-based projects.
- Participated in various group discussions on McKesson RIS, gaining 4 actionable insights on using the tool for adjusting image presentation.
- Interacted with 16 industry experts to stay updated on future healthcare trends.
