Basic Life Support (BLS)

WORK EXPERIENCE

Registered Nurse

Select Specialty Hospital

2025 - current / Augusta, GA

- Delivered safe, evidence-based care to up to 6 high-acuity patients per shift in a cardiac step-down unit using Baxter smart infusion pumps.
- Used Cerner to chart all patient assessments, care plans, and medication records with 100% on-time documentation compliance.
- Responded to 18 rapid response calls over a 3-month period, initiating protocols that stabilized patients prior to ICU transfer.
- Mentored 4 new graduate RNs through clinical onboarding, contributing to a **22% improvement in orientation completion scores** hospital-wide.

Licensed Practical Nurse

Piedmont Atlanta Hospital

2023 - 2025 / Atlanta, GA

- Provided direct nursing care to 12 residents daily, assisting RNs with routine assessments every shift and effectively managing wound care procedures.
- Operated Welch Allyn monitoring equipment for vitals tracking, flagging early signs of infection in 8 cases later confirmed via lab work.
- Documented patient care tasks in Kronos, ensuring **shift handovers were completed within 12 minutes** and fully reconciled.
- Gave instructions and medication education, increasing patient understanding scores by 18% based on follow-up calls.

Nurse Intern

Northside Hospital

2022 - 2023 / Atlanta, GA

- Completed 128 clinical hours in a med-surg unit, assisting an average of 21 patients daily with hygiene and repositioning while diligently tracking intake and output.
- Recorded clinical notes and nursing interventions in Cerner, consistently reviewed by preceptors with zero corrections needed.
- Participated in interdisciplinary rounds, contributing input on pain management that led to a **12% faster reassessment** cycle in pilot rooms.
