### CAREER OBJECTIVE

Nurse Practitioner with experience on the front lines of the COVID-19 pandemic. Looking to transition to a lower risk clinical environment, like Costa Medical Clinic, where I can have a large impact on at-risk patients.

### WORK EXPERIENCE

#### Nurse Practitioner

##### Housing Works

March 2020 - current / San Diego, CA

- Worked alongside an interdisciplinary team of healthcare providers to provide quarantined housing to 23 homeless individuals experiencing COVID-19 symptoms
- Assessed whether residents were able to perform ADLs and were medically stable
- Prescribed medication when appropriate for 27 residents needing ongoing medications refilled
- Collaborated with 7 health care providers in planning interventions to best meet patients' needs in a timely manner and to promote the continuum of care
- Prescribed appropriate laboratory and diagnostic procedures related to patients' health status, and facilitated appropriate treatment interventions predicated on results of those procedures
- Performed direct patient care procedures in 100% accordance with agency policies and procedures

#### Nurse Practitioner

##### Centers Plan for Healthy Living

August 2010 - February 2020 / San Diego, CA

- Managed 350+ members with acute change in condition in collaboration with primary care physician and the ICT
- Prescribed appropriate medications, including controlled substances in accordance with CA law
- Ordered, reviewed, and followed up with treatments
- Communicated with family and designated representatives 3 to 4 times per week about significant changes in patient condition and therapies
- Provided clinical education to 10+ nursing staff a year
- Participated in the on-call program, providing on-site assessments and interventions for patients after hours and on weekends 6 times a year
